

FOR A GEOGRAPHICAL OVERVIEW

Specialist in geography
Serving the environment and communities
Innovations in geographic information processing
Earth observation technology
Providing decision support tools
Turnkey projects
Multidisciplinary and experienced team
Risk management

QUALITY PRODUCTS AND SERVICES

Digital satellite imagery processing
Innovative radar imagery processing
Photo interpretation
R&D in digital imagery processing

Inventories for environmental studies
Field work & GPS surveys
Database management

Land inventory mapping
Thematic mapping
Rapid response mapping
Web mapping

Private or public sector research reports
Strategic advice and recommendations
Technology transfer

DROMADAIRE GEO-INNOVATIONS INC.

8075 Hochelaga, Bureau 201

Montreal, Quebec, H1L 2K9

info@dromadaire-geo.com | www.dromadaire-geo.com

WE WORK ON:

Environmental Issues

Climate change
Natural disasters
Frazil ice
Impact studies
Deforestation
Melting glaciers
Loss of wetlands
Flood zones
Watersheds
Desertification

Geospatial Analysis

Demographics
Transport
Economy
Geomarketing

Urban Environment

Urbanization / sprawl
Soil permeability
Plant cover
Heat islands

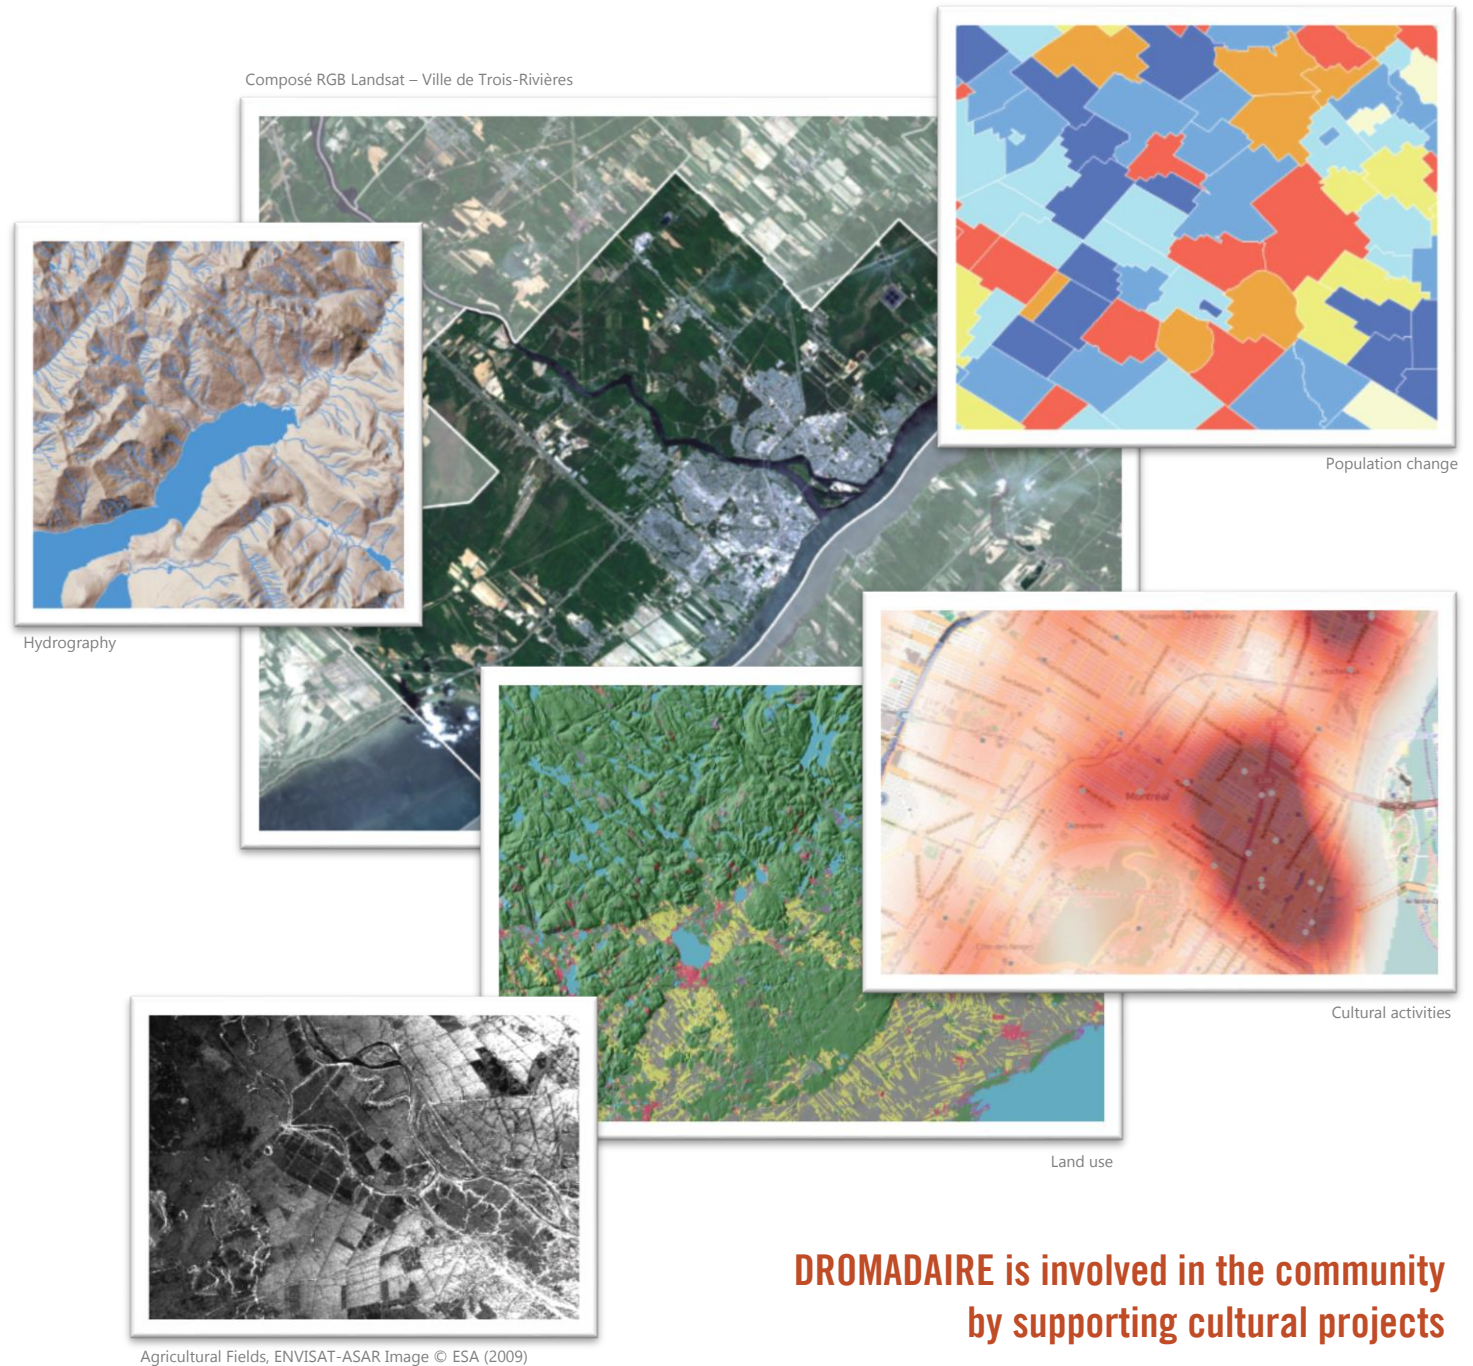

Forestry

Monitoring of logging
Forest regeneration
Forest diseases
Forest fires

Agriculture

Crop yields
Monitoring of humidity rates

Mining

**DROMADAIRE is involved in the community
by supporting cultural projects**
